

News Release

LiberoThera Co., Ltd.

Relocation of research laboratory

We are pleased to announce that we have relocated our research laboratory to the address below from June 1st, 2022.

LiberoThera has been granted membership of the TMDU Innovation Park (TIP), which is jointly planned and operated by the Tokyo Medical and Dental University (TMDU) and Mitsubishi Estate. This enables us to open our laboratory with generous access to the sharing facilities and devices in TIP.

Taking this relocation as an opportunity, we will accelerate our drug discovery research and development. We are also aiming to expand our academic-industrial collaborations for innovative medical research.

(New Address)

Tokyo Medical and Dental University/ Bldg.8 TIP LAB #516
1-5-45 Yushima, Bunkyo-ku, Tokyo 113-8510, JAPAN
